“**From
darkness to
light...**”

Dear Friend,

Nearly every day, we do something without giving it another thought. We come home from work when it is dark and turn the lights on so that we can see what is in front of us. Or we get up in the middle of the night for a glass of water, and rather than stumble in the dark, we switch on the light to see where we are going.

It sounds trite, doesn't it? But the change from darkness to light is so profound!

Recently, our friends and team leaders in India, Samir and Cynthia, visited a growing village church at the centre of our **Light Up A Village** project in the tribal areas of central India, a region where we have been broadcasting the local language for many years.

As a result of this work, many people and their entire families from the dozens of small villages in this area of India have come to know Jesus. I've been there. I see how God has moved and is moving people from darkness to light both physically and spiritually. This village is a key hub of the tribal community, and because of this, it is literally a beacon of light to so many in what is a spiritually dark place.

We also love receiving testimonials like the one below—

*“My family and I learned the valuable lesson
of how to pray to Parameswar (the Lord)
to receive his response and blessings.”*

Samir, is a great guy. Last time I was with him, he was my driver, protector, and guide. I still recall how on one particular day when we pulled up at a fork in the dusty and overgrown track we were following, there was a longer moment of deliberation than usual before Samir decided which was the right way to go!

In the coming months Samir and our team in India will continue with the distribution of radios, solar powered lights and charging terminals.

Please pray for them and the church leaders as they work amongst this growing Christian community and share the love of God with those who are yet to know Jesus. Pray for their protection in the lead up to the general election next year.

Thank you. Once again, none of this would be possible without your prayerful and generous financial support.

Kind regards

Dale Stagg, CEO

P.S. Let me know if you would like more information on contributing to the distribution of radios, solar powered lights, and charging terminals. Or simply, include your gift with the response form included.
