**Dear Friend,**

I recently shared with you some updates on the doors God is opening in the remote and rural areas of India.

Our shortwave ministry reaches millions of people every week in India, and our distribution of solar powered lights and radios brings practical and spiritual change to dozens of villages and communities. Earlier this year we saw the building of a community church commence because Jesus changed the life of a leader in his community!

However, in some of the places we broadcast, there is an urgent need for basic healthcare to save lives (I address this in more detail in this edition of 'Voice & Hands').

What better way to open up the hearts and minds of those we are trying to reach with the Good News of Jesus! For them to see our words strengthened by compassionate action, and for our actions to reflect the overflowing nature of God's love for those living in remote places to experience the outworking of this love. To truly light up a village.

We are not naïve about this. We know that we cannot do this without the generosity of our friends who support us.

*“Dear Sir, I am migrated to Chikkabalapur to work on a contract basis. We stay in tents and sometimes in unfinished constructed buildings. We have received the radio through you - thank you for that. I have been listening to your program regularly and I am blessed. Please pray for my husband who is refusing to hear the word of God. My children are joining me to listen to the wonderful songs played through your program. Thank you”*
