**Dear Friend,**

I love sharing stories of how with your prayerful support, lives are being changed from far-flung places like Bangladesh, Myanmar and India, where only recently a new church was being built for an entire community. The impact of the gospel through shortwave radio continues to inspire me!

A listener from Bangladesh shares – *“I found answers to many questions in my life ... It is true that everyone who believes in Jesus receives forgiveness of sin through his name.”*

And from India – *“I am a regular listener of the programs, and I have learnt about Jesus in the past year, and I want to become a Christian. There is no church near our place, my family also knows that I listen to radio about Jesus, now I share with my family whatever I learn. Help me to learn more and tell my family and village about Jesus.”*

As I’ve said before, there’s nothing better than opening a letter from someone whose life or family, or entire community, has been touched by the programs we’ve aired. And to think that this has now resulted in the building of a community church in India just makes me shake my head in wonder.

**Transforming lives abroad and at home!**

In Kununurra, we are in the perfect place to broadcast a message of hope to millions of people throughout the Asia-Pacific region. But we are also very aware of the urgent needs of our local Kimberley community where hope is particularly hard to find for local young people.

“**From Bangladesh to India, to outback Australia ...**”

In August of last year, we partnered with Alta-1 College to open a 'Kimberley Campus' at the Reach Beyond shortwave broadcast facility in Kununurra, to offer education, support and life skills for marginalised young people. The goal is to see these students flourish and become leaders in their community.

This is not just another school. It is designed to be an integral part of the community, working with local schools and community groups to identify those students that for a whole range of reasons haven't been able to find their way in the mainstream system.

Initially for middle school girls, it's no secret that the majority of students are indigenous and come from very challenging backgrounds. Through the care of Alta-1, routine and order are brought into their lives and the students have the hope of a brighter future.

Alta-1 College expects to reach capacity of 25 students by the end of this year, and with the addition of extra facilities, plan to open a class for middle school boys in 2020.

Kevin Thompson, Alta-1 Business Manager, reflecting on the strong relationship with Reach Beyond, states, *"We have prayed for the opportunity to establish a school in the Kimberley for many years. When we started talking to the team at Reach Beyond it was just like Jesus was at the table. We all knew in our hearts that this was the beginning of something exciting. We are so grateful for this opportunity to work with Reach Beyond."*

Partnering with Alta-1 College to help marginalised youth flourish in our remote community, is a great way of being able to model our heart for those we are reaching with our message abroad, closer to home.

This wonderful opportunity exists as we work together to reach out with the gospel and touch the lives of those in need, locally and overseas. Once again, we could not do this without your support—prayerfully and financially.

For more information, visit our website at [www.reachbeyond.org.au/alta-1-college](http://www.reachbeyond.org.au/alta-1-college) or give us a call on 1300 653 853.

Yours in partnership

Dale Stagg, CEO
